### DOWNLOAD AND INSTALL SOFTWARE

Go to [www.cloakroom-solutions.com](http://www.cloakroom-solutions.com) and download the latest software. You will need setup software for the active USB cable and the CoatCheck software. **FIRST** install the Active USB cable software, then the CoatCheck software. In both cases, double click the "setup.exe" file to start installation.

### PRINTER REAR

First print a Z-report or the printer will not enter setup mode. Now turn the power off before connecting the printer.

### CONNECT PRINTER TO PC WITH PROVIDED ACTIVE USB CABLE

Connect the printer and the PC as shown with provided USB Cable.

### START COATCHECK SOFTWARE

The CoatCheck software will try to connect with the printer. It can only connect if the active USB software has been installed. Click the CONNECT button. The indicator will blink green / red. Now turn on the printer to connect.

### SETTINGS OVERVIEW

When entering setup mode and after every saved change, the printer will print a setup overview (as displayed below).
